2. Endpoint Security Products

Description:

Endpoint security protects devices that connect to a network from malicious threats. These include laptops, tablets, mobile phones, and other wireless devices. Products in this category include:

- Antivirus software

- Anti-malware protection

- Endpoint Detection and Response (EDR)

- Extended Detection and Response (XDR)

- Network Detection and Response (NDR)

Benefits:

- Prevents unauthorized access to data, applications, and networks.

- Helps prevent data loss and protects a company's/agency's reputation.
